

WorkFit-TLE

- Allows you to easily modify an existing office space or cubicle by adding a WorkFit-TLE to an open tabletop without the cost of expensive professional installers
- Features a large drop-down keyboard tray for a comfortable and ergonomic fit while sitting*
- Keeps mobile devices within reach with the integrated tablet/cell phone station built into the work surface (with removable tray cover)
- Saves space and keeps your workstation organized with a rear cable tray that can be easily removed with two thumb screws

ENHANCED SIT-STAND DESK WITH DROP-DOWN KEYBOARD TRAY AND MOBILE DEVICE STATION

The enhanced WorkFit-TLE sit-stand desk offers a large, drop-down keyboard tray for improved ergonomics when sitting* and a convenient station for mobile devices. A cable management tray behind the monitor keeps cords organized and out of the way. Like the WorkFit-TL, it maximizes work space as it moves straight up and down to quickly convert a tabletop into a healthy sit-stand workstation.

* Based on the lower keyboard tray, the WorkFit-TLE may not be suitable for taller users due to the keyboard tray height when standing. For taller users we recommend either our WorkFit-T or WorkFit-TL. We also recommend the Ergotron monitor riser accessory to improve the ergonomic vertical positioning between the monitor and keyboard tray.
