

Table of Contents

Module One: Introduction to Ergonomics

- Definition of Ergonomics
- History of Ergonomics
- Ergonomics in the Workplace
- Ergonomics and Health and Safety
- Economics of Ergonomics
- Ergonomic Programs
- Get Excited: Success Stories
- Definitions

Module Two: Body Tissues and Disorders Associated with Physical Work Characteristics

- Muscle
- Tendon
- Peripheral Nerve
- Spinal Disc
- Joints
- Other Body Systems: Vascular, Metabolic and Temperature Regulation, Hearing, Sight
- Mechanism of Injury

Module Three: Risk Factors

- Risk Factors
- Multifactorial Nature of MSDs
- Identification / Documentation of Risk Factors
- Passive / Active Surveillance
- Tools: Checklists and Surveys

Module Four: Anthropometry, Posture, and the Ergonomics Upper Extremity Intensive Tasks

- Anthropometry
- Tools: Posture Evaluation / Upper Extremity

Module Five: Ergonomics of Lifting / Lowering Tasks

- Muscle Strength and Biomechanics
- Mechanism of Injury
- Moment Concepts
- Psychophysics
- NIOSH
- Tools: 2D Model, Liberty Mutual Tables, NIOSH

Module Six: Ergonomics of Push / Pull / Carry Tasks

- Pushing / Pulling Tasks
- Carrying Tasks
- Tools: Push / Pull/ Carry Tasks

Module Seven: Ergonomics of Heavy Physical Activity

- Metabolic Concepts
- Evaluation Methods
- Tools: Bernard / Garg

Module Eight: Controls and Displays

- Man / Machine Interaction
- Control and Display Guidelines
- Panel Layout Guidelines

Module Nine: Ergonomic Standards and Guidelines

- Organizations that Write Standards and Guideline Documents
- Occupational Safety and Health Act
- U.S. State Ergonomics Standards
- The Americans with Disabilities Act
- Hand-Arm (Segmental) Vibration
- Whole-Body Vibration
- Heat Stress
- Noise
- Health and Safety Program Management for Cumulative Trauma Disorders and other Ergonomic Hazard-Induced Disorders
- Ergonomic Consideration in the Design, Installation, and Use of Manufacturing Systems
- Video Display Terminal Workstations

Module Ten: Prevention and Control of Ergonomic Risk Conditions

- Engineering Controls
- Case Studies and Product Solutions
- Administrative Controls
- Personal Protective Equipment
- Medical Management
- Training and Education

Module Eleven: Office Ergonomics

- Posture
- Standards and Guidelines
- Tools: VDT Checklists
- Controls and Solutions
