

## One-Touch Free Stand

Starting at \$799

**The One-Touch Free Stand** lies flat on top of your existing desk and requires NO desk or monitor mounting, installing in less than 10 minutes!

Also powered by an electric motor, the Free Stand easily adjusts to your desired height giving you the ability to sit-stand throughout your work day.

The One-Touch Free Stand is available in two models, the desk-top model and the drop down keyboard model. (see sample images of each below)

Both come standard with the base unit and an electric motor, as well as an upper & lower work surface.

The base model holds up to two 22" monitors sitting on the top work-surface, with no mounting required!

Simply place the monitor stands on the work-surface, and you're ready to go!

Available in both PC and iMac® models.

## One-Touch Ultra

Starting at \$849

**The One-Touch Ultra** is an electric powered height adjustable sit stand system that mounts directly to your existing desk and blows the competition away with its unique features and outstanding performance.

The Ultra is able to mount and hold up to four 27" monitors and has 20" of vertical travel, the highest range on the market today!

Standing computer desks and sit-stand solutions are now providing a healthier, more productive work environment for all types of employers.

Enjoy the many benefits of sit-standing throughout your work day, and in no time you will be on your way to a healthier YOU.

The One-Touch Ultra comes standard with both a lower and upper work-surface, a center monitor mounting pole and your choice of desk mounting hardware.

Compatible with both PC and iMac®.

# One-Touch free Stand

## for PC or iMac®

The One-Touch Free Stand is available in two models.

The desk-top lower work-surface model requires no desk mounting or clamping for use and lies flush with the top of your desk in the down position.

PC MODEL #: 700-FREE-DT-G

iMac® MODEL #: 700-FREE-DT-G-MAC

The drop down keyboard tray model clamps to the front of your desk for stability as the lower work-surface extends below the front of your desk top in the down position, providing a more ergonomically correct sitting position.

PC MODEL #: 700-FREE-KT-G

iMac® MODEL #: 700-FREE-KT-G-MAC
